

calibration certificate

April 8, 2016

This is to certify that

Gengenbach Messtechnik e.K.

is hereby granted the title of 'Kipp & Zonen Approved Calibration Facility' and is authorised to use this term in its commercial offerings and marketing material.

An Automated Calibration Facility for Radiometers (ACFR) has been installed, commissioned and approved to be functioning correctly by Kipp & Zonen at the Gengenbach Messtechnik e.K. premises in Reichenbach an der Fils, Germany.

Members of the Gengenbach staff have successfully completed the program of studies on the operation and maintenance of the ACFR, including the calibration of pyranometers in accordance with the procedures of Annex A.3 of ISO 9847 'Calibration of Field Pyranometers by Comparison to a Reference Pyranometer'.

Dr. Joop Mes

Head of the Calibration Committee at Kipp & Zonen
