Products

These products are eligible for a 5 year warranty:

- All CMP pyranometers; **CMP3, CMP6, CMP10, CMP11, CMP21** and **CMP22**
- All Smart SMP pyranometers; **SMP3, SMP6, SMP10, SMP11, SMP21** and **SMP22**
- Both our pyrhemeters; **CHP1** and the Smart **SHP1**
- All pyrgeometers; **CGR3, CGR4, SGR3** and **SGR4**
- Our Total UV radiometers; **CUV5, SUV5, SUV-A, SUV-B** and **SUV-E**

Reliable, accurate and durable

Good care and maintenance will benefit a longer reliable operating life for your instruments; such as cleaning the dome or window, regularly checking and replacing the desiccant (of instruments that require it) and a bi-annual calibration.

Online registration

The registration form at www.kippzonen.com/register is very easy to use and only takes a few minutes to complete.

Select a product name by typing in the search field and then fill in the required information on each page. You can register multiple products on the same form.

You will receive an e-mail confirmation of your free extension of the standard 2-year warranty to 5 years.

Terms & Conditions

After registration within 6 months of purchase, an extension of our standard 2-year warranty to 5 years is granted to all CMP and SMP, CGR and SGR, CHP and SHP, CUV and SUV model radiometers. All other instruments and accessories are excluded from the warranty extension. Eligible products have a sticker on the outside of the box and a printed card in the packaging that gives the registration procedure.

For the 5 year warranty to be valid it is a requirement that the instrument is recalibrated at a Kipp & Zonen approved facility during the third year after purchase.
